CLOSING & TEA

The Programme is subject to change.

Faculty Coordinator: Dr. Dakshina Chandra, Assistant Professor, NLU, Delhi
Coordinator : Ms Shraddha Dubey, Academic Fellow , NLU Delhi

In the dynamic landscape of the legal profession, the pivotal role played by law teachers cannot be understated. As architects of knowledge, cultivators of critical thinking, and guardians of ethical values, they mould the future legal minds that will shape societies and justice systems.

The Law Teachers Conclave recognizes the significance of this role, and seeks to empower the educators to excel in their mission of nurturing the next generation of legal professionals.

The Conclave is not just an event; it's a movement to bring together law teachers from diverse backgrounds, experiences, and expertise onto a common platform, with the aim to foster professional growth, facilitate knowledge sharing, and offer networking opportunities; in the process creating something that does not yet exist.

Legal pedagogy, like the ever-evolving sphere of law itself, is not static. As societal norms, technological advancements, and legal frameworks undergo transformations, the manner and content of legal education must parallelly adapt. The conventional classroom setting is fast becoming out-dated, necessitating a paradigm shift among educators. This shift involves adapting to new technologies, cultivating inclusivity, celebrating diversity, and redefining engagement strategies, all the while grappling with the challenge of shrinking attention spans.

It is our duty, as educators, to ensure that the next generation of legal professionals is not only well-versed in their field but also adept at navigating the complexities of the global stage. The conclave will feature a wide array of interactive sessions, panel discussions, talks, and presentations led by prominent legal scholars, experts, and practitioners. These sessions will cover various facets of legal education, teaching methodologies, role of technology in education, and emerging trends in the legal field.

Participation in this exclusive event is open to all law teachers in India, teaching full time, part time, ad-hoc or visiting faculty.

The central theme of the conclave is Empowering Legal Educators for Tomorrow. The one day program strives to inspire discussions on how educators can navigate the challenges and opportunities in the evolving landscape of legal education.

To ensure maximum participation, the conclave is being organised at regional level.

- The conclave marked its debut with the Western Region conclave held at GNLU, Gandhinagar on 4 Nov 2023.
- The Southern Region conclave held in association with RV University, Bengaluru concluded successfully on 20 January 2024

Whether you're a seasoned educator or new to the world of legal teaching, there's something for everyone to take away

The themes and subjects being discussed and deliberated during the Northern Conclave are :

Collaborative Learning: Industry Insights for Educators in a dynamic World:

The panel will discuss the competencies required for students to thrive in the global and dynamic professional landscape. It aims to delve into collaborative opportunities between the industry and academia, seeking ways to enhance the overall educational experience and better equip students for the challenges of the professional world. The panel will share with educators the practical demands that will help teachers prepare students more effectively for real-world challenges.

Navigating the Multifaceted Roles of Legal Educators: Exploring Effective Practices

The panel will shed light on the multifaceted roles and responsibilities that legal educators navigate. The session will delve deep into the reservoir of experience and wisdom that our panellists bring to the table. Their seasoned insights as professionals with extensive experience can assist in addressing key questions that teachers encounter. These include task prioritization, the delicate balance between research and teaching, cultivation of professional development, effective management of classroom instruction alongside administrative duties, and a comprehensive understanding of ethical responsibilities. Throughout this discussion, we will explore the most successful practices, the challenges encountered, and the innovative solutions crafted by legal educators in navigating their multifaceted roles. Whether you're a seasoned educator or new to the world of legal teaching, there's something for everyone to take away.

Why must Law Teachers embrace Technology

Mentorship Program for Legal Education

This program is a structured initiative that pairs experienced individuals—senior students (mentors) with less experienced ones—junior batches (mentees). This strategic pairing facilitates the exchange of guidance, support, and knowledge transfer, enhancing the overall educational experience. Justice Midha has implemented this Mentorship Program at Galgotias University and National Law University Delhi, demonstrating its practical applicability. The session will see him outlining the positive impact and results of this initiative. His presentation will serve as a resource for all, encouraging its adoption in relevant educational scenarios.

Making Super Lawyers: Legal Education for the Future

A talk by Advocate Bharat Chugh where drawing upon his extensive background in litigation, judgeship, and various teaching and guest lecture engagements, he imparts practical insights into the dynamic landscape of legal education. The focus is on moulding outstanding lawyers for the future.

Technology & The Law Classroom

Introducing the use of Technology in 3 aspects of learning: Classroom & Academic Management, Content Dissemination & Consumption and Internal & External Interaction
